OUR PLEDGE REGARDING MEDICAL INFORMATION

We understand that medical information about you and your health is personal. We are committed to protecting medical information about you. We create a record of the care and services you receive. This record is needed to provide you with quality care and to comply with certain legal requirements. This notice applies to all of the records of your care generated by Coquille Valley Hospital, whether made by Hospital personnel or your personal doctor. Your personal doctor may have different policies or notices regarding the doctor’s use and disclosure of your medical information created in the doctor’s own office or clinic. This notice will tell you about the ways in which we may use and disclose medical information about you. We also describe your rights and certain obligations we have regarding the use and disclosure of medical information.

We are required to ensure that medical information that identifies you is kept private within certain limitations, give you this notice of our legal duties and privacy practices with respect to medical information about you and follow the terms of the notice that are currently in effect.
USE AND DISCLOSURES OF MEDICAL INFORMATION

The following categories describe different ways that we use and disclose medical information. Not every use or disclosure in every category will be listed. However, all of the ways we are permitted to use and disclose information will fall within one of these:

**For Treatment** We may use medical information about you to provide you with medical treatment or services. We may disclose medical information about you to doctors, nurses, technicians, medical students, clinical students, or other hospital personnel who are involved in your care at Coquille Valley Hospital. Different departments of the Hospital may also share medical information about you in order to coordinate the services you need. We also may disclose medical information about you to people outside the Hospital who may be involved in your medical care before or after you leave the Hospital, such as family members, clergy or others used to provide services that are part of your care.

**For Payment** We may use and disclose medical information about you so that the treatment and services you receive at the hospital may be billed to, and payment may be collected from you, an insurance company or a third party.

**For Health Care Operations** We may use and disclose medical information about you for Coquille Valley Hospital operational reasons. These uses and disclosures are necessary to run the Hospital and make sure that all of our patients receive quality care. We may also combine medical information about many Hospital patients to evaluate current services. We may also disclose information to doctors, nurses, technicians, medical students, clinical students, and other Hospital personnel for review and learning purposes. We may also combine the medical information we have with medical information from other health care providers to compare how we are doing and see where we can make improvements. We may remove information that identifies you from this set of medical information so others can use it to study health care and health care delivery without learning who the specific patients are.

**Appointment Reminders** We may use and disclose medical information to contact you as a reminder that you have an appointment for treatment or medical care.

**Treatment Alternatives** We may use and disclose medical information to tell you about or recommend possible treatment options or alternatives.

**Health Related Benefits and Services** We may use and disclose medical information to tell you about health related benefits or services.

**Fundraising Activities** We may disclose information to the fund-raising entity that is related to the Hospital so that they may contact you in raising money for the Hospital.

**Hospital Directory** We may include certain limited information about you in the hospital “directory” while you are a patient at the hospital. This information may include your name, location in the hospital, your general condition (e.g., fair, stable, etc.) and your religious affiliation. The directory information, except for your religious affiliation, may be released to people who ask for you by name. Your religious affiliation may be given to a member of the clergy, such as a priest or rabbi, even if they do not ask for you by name. This will allow your family, friends, and clergy to visit you in the hospital and generally know how you are doing. You will have the opportunity to request that your information not be listed in the directory.

**Individuals Involved in Your Care or Payment for Your Care** We may release medical information about you to friends or
family members who are involved in your medical care. We may also give information to someone who helps pay for your care. We may also tell your family or friends your condition and that you are in the hospital. In addition, we may disclose medical information about you to an entity assisting in a disaster relief effort so that your family can be notified about your condition, status and location.

**Research** Under certain circumstances, we may use and disclose medical information about you for research purposes. For example, a research project may involve comparing the health and recovery of all patients who received one medication to those who received another, for the same condition. All research projects, however, are subject to a special approval process. This process evaluates a proposed research project and its use of medical information, trying to balance the research needs with the patient’s need for privacy of their medical information. Before we use or disclose medical information for research, the project will have been approved through this research approval process. Medical information about you may be disclosed to people preparing to conduct a research project; for example, to help them look for patients with specific medical needs, so long as the medical information they review does not leave the hospital. We will almost always ask for your specific permission if the researcher will have access to your name, address or other information that reveals who you are, or will be involved in your care at the hospital.

**As Required By Law** We will disclose medical information about you when required to do so by federal, state or local law.

**To Avert a Serious Threat to Health or Safety** We may use and disclose medical information about you when necessary to prevent a serious threat to your health and safety or the health and safety of the public or another person.
